## Career Overview:

Over the last 4 years of my employment, I worked on Microsoft Dynamics AX ERP and thereby acquired the skills set required to attain my goals. Technical expertise includes strong hands-on technical skills in Microsoft Dynamics AX IDE MorphX (Designers and Development Tools), programming language X++, SSRS, Workflow and Enterprise Portal. I was involved in developing Classes for various functionalities like data migration, batch jobs, and business logic for SSRS Reports. I also learned the use of SQL Database and securities for Dynamics AX. I got a chance to work on couple of ASP.NET web pages as well.

## Career Objectives:

My objective is to obtain a position where I can contribute my knowledge of Microsoft Dynamics AX and years of experience in handling large development projects towards mutually beneficial growth both for the organization and me.

## Education:

- **Bachelor of Engineering(Computer Science):** University of Pune, INDIA  
GPA: 3.25/4.00 (First Class)  
Graduation year: May 2010

## Technical skills:

- **Microsoft Dynamics AX 2009**
- **Microsoft Dynamics AX Design and Development (X++)**
- **Microsoft Dynamics AX Enterprise Portal**
- **Microsoft Dynamics AX SSRS**
- **Microsoft Dynamics AX Workflow**
- **Microsoft Dynamics AX Deployment and Infrastructure**
- **Microsoft Dynamics AX Configuration and Customization**
- **C#, ASP .Net**
- **Microsoft Certified IT Professional (MB6-819):** Microsoft Dynamics AX 2009 Development Introduction

## Employment Overview:

- **Persistent System Ltd., Pune , India**(Dec 2010-Dec 2014):

I worked as Module Lead in **Dynamics AX** Unit at *Persistent System Ltd*

## Projects:

- **Enterprise System Internal Project for Persistent Systems**

**Overview:** I worked on implementation of ERP of the organization. I was involved in development and customization of various modules mainly focused on PSA and was involved in development of new modules using Microsoft Dynamics AX 2009. I worked on some interfaces like workflow approvals over email, integration with various systems, data migration etc. I have also worked on SQL Database creating linked servers to gather data from other databases. I also developed couple of pages in C#/ASP.Net. I have ensured that the projects are completed within the project deadline strictly in compliance with the quality standards of Microsoft Dynamics AX and are deployed successfully on production environment.

**Roles & Worked on:**

- Development in Dynamics AX in PSA (Professional Services Automation) module, forms designing, security settings for various user groups, RLS configuration, workflow configuration, document management, batch job configuration, number sequence configuration, email configuration.
- Developed a complete new module: OP (Order Processing) to incorporate maximum functionalities used for CMS (Contract Management System) module using Dynamics AX.
- Developed a standalone new module: OMET (Operating Margin Estimation Technique) in Dynamics AX. Its opportunity's overall estimation for margin which includes admin, travel, resource. It helps in tracking milestones, risk management, resource planning at earlier stages.
- Developed a new functionality on AX EP page for releasing hardware, software assets allocated to any employee by self or Project manager.
- Configured new domain (company) in Dynamics AX.
- Developed SSRS reports using AX as required for different customization.
- Deployment of code on different servers using RAMP and SCRUM processes.
- Developed Store Procedures so as to integrate data from one database to other which requires knowledge of SQL server.
- Developed couple of pages in C#/ASP.Net for Audit Management System.

**Technology:** Microsoft Dynamics AX-2009, C#/ASP.Net

## Achievements & Curricular Activities:

- Awarded 'You made a difference' award for the work executed while designing and developing a new module (OMET) in Persistent Systems Ltd.
- Awarded various 'Team Achievement' awards for working for different modules in Persistent system Ltd.
